EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Kratz on 2/7/05.

The application has been amended as follows:

In the Claims:

1. In claim 1, line 4, change "a friction member" to --a separate friction member--.
2. In claim 1, line 5, change "shape for only" to --shape attached to a peripheral wall of at least one of a base or a cover, the friction member only--.

Allowable Subject Matter

2. Claims 1-9 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Re claims 1-9, prior arts do not teach or suggest the combination of a harness protector with a separate friction member having a resilient protruding part with inclined pieces, the friction member only temporarily contacting with and holding the wire harness in the curved protector main body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments and amendments filed 1/25/05 have been fully considered and finds the argument regarding the friction member being a separate piece along with the amendments to the claim persuasive.
